How to Prepare Items for Recycling

GLASS

1. Wash and rinse thoroughly.
2. Remove caps and lids. Metal ones may be recycled in the metal bin, plastic ones may be recycled with the plastic tops and lids.
3. Separate by color clear, green and brown.
4. Do not mix colored glass with clear glass.

PLASTICS

1. Only HDPE plastic is accepted (milk, juice and detergent containers). Check bottoms of containers for the proper symbol and plastic code.

2. Wash and rinse thoroughly.
3. Lids, tops and spouts must be removed.
4. Crush flat.

METALS

1. All metals are accepted but aluminum should be separated from other types.
2. Metal food and beverage cans must be washed and rinsed.
3. Remove paper labels.
4. If possible, remove lids and bottoms with a can opener.
5. Crush the cans flat and put the lids and bottoms inside of the flattened cans.

PAPER

Tie in bundles with string, or stack neatly in brown paper bags

1. Newsprint, computer /white office paper (no colored ink)
2. Mixed Paper—envelopes, folders, colored, phonebooks
3. Cardboard, paperboard
4. Glossy – magazines, flyers and catalogs
5. Cardboard, paperboard and magazines.

BATTERIES

1. Put household batteries in a plastic bag, or in a clean, dry milk or juice jug. Store in a cool dry ventilated location.
